Igor Santos

Software Engineer | Computer Science | AWS Certified | Back-End Developer | Solutions Architect
Santo André, São Paulo, Brazil

Summary

Computer Science student working as a Software Engineer. I have experience with distributed systems, microservices, MQ queues, Pub/Sub Kafka, container platforms using kubernetes like openshift. Still, I have experience with AWS services and solutions. Iac like terraform, Devops and Ci/Cd using github and github actions. I really like learning new things and working with different areas. I'm always willing to teach and face new challenges!

Experience
